When Venus goes missing, the team hopes to use the X-Men's technological wonder, Cerebra, to track her down. But they didn't say "please," and Cyclops, Wolverine and their band of merry mutants refuse to stand for such poor manners! Then, an unknown entity manipulates the time-space continuum, bringing the classic Avengers into the present, and these Avengers don't take kindly to time traveling against their will. Neither does the atomic wild card, the Incredible Hulk! The Agents will have to return everyone to their own time if they hope to preserve the future! Collecting X-MEN VS. Penciled by RAMON ROSANAS
Cover by MICHAEL GOLDEN

Return to the Old World. With his secret identity of the Spider, the boundless ambition of individuals such as Norman Osborne and an untamed wilderness populated with tyrant lizards, the New World of 1602 was a dangerous enough place for Peter Parquagh. But now, charged with escorting the traitorous Osborne back to England, things will only get rougher for the young hero. Transatlantic travel is never safe, but Parquagh has the added hurdle of dealing with his superstitious fellow sailors, who are frightened and threatened by the former printmaker's strange abilities. While fending off their increasing hostility and the danger of treacherous pirates, Parquagh must struggle to ensure the safe passage of the ship and its prisoner, as well as a dangerous and mysterious cargo.
